Summary

Frontend Developer with a React, TypeScript, JavaScript and CSS3 stack, trained through Frontend Simplified and shown in deployed work: CraftDesk, a booking and payments app I designed and built independently, and a frontend internship at Skinstric AI rebuilding interactions and responsive layouts from Figma specs. Career changer from respiratory therapy and mechanical estimating, looking for a frontend role on a team where I can keep learning while shipping working software.

Technical Skills

Languages & Web: JavaScript (ES6+), TypeScript, HTML5 and semantic HTML, CSS3, responsive and mobile-first design
Frameworks & Libraries: React, Next.js, Tailwind CSS, Redux Toolkit, React Router, Astro
Backend & APIs: REST APIs (fetch, axios), Supabase (auth, PostgreSQL, storage, Edge Functions), Firebase Auth, Stripe
Tools & Platforms: Git and GitHub, Vite, Vercel, Figma to code, ESLint, Claude Code

Experience

Self-Employed (Bryan, OH, Remote) May 2026 - Present
Independent Web Developer

- Designed, built and shipped CraftDesk, a booking and payments app for small service businesses (see Projects), then pitched it to roughly 20 to 30 repair shops to test demand.
- Building CornfedBucks (cornfedbucks.com), a content and affiliate site for Midwest whitetail hunters, in Astro.
- Built and deployed websites for two small local businesses (a cleaning service and a wildlife management company).

Skinstric AI (Remote) Aug 2026
Frontend Development Intern (Virtual Internship)

- Rebuilt landing page hover interactions and micro-animations in hand-written CSS and JavaScript for a Next.js app.
- Improved responsive layout across multiple screens to match Figma specs and an existing Vercel reference build.

Cincinnati Children's (Cincinnati, OH) Apr 2018 - Mar 2021
Registered Respiratory Therapist

- Respiratory care in a pediatric hospital: protocol-driven treatment, patient charting, shift hand-offs with physicians and nurses.

R J Lanthier Co (Escondido, CA) Jun 2007 - Jul 2010
Mechanical Estimator

- Prepared labor and materials cost estimates for mechanical contracting bids from drawings and specifications.

Projects

CraftDesk | Live Demo | GitHub

- React, Vite, Tailwind CSS, Supabase and Stripe (test mode): public booking form with photo upload, owner dashboard with approve and decline, request to payment to status lifecycle, Edge Functions for payment links and webhooks, Resend emails. Identified and corrected overly permissive row-level security policies, strengthening booking-data access controls.

Skinstric | Live Demo | GitHub

- Next.js, React, Tailwind CSS v4 and Fetch API, built from Figma specs: camera or image upload, AI analysis API results with confidence rings, animated diamond transitions, responsive layout.

NFT Marketplace (Ultraverse) | Live Demo | GitHub

- React, Axios and React Router: static starter turned into a working app with live API data on every page, skeleton loading states, Explore filters, auction countdown and scroll animations.

Education

Frontend Simplified Dec 2025 - Oct 2026
Frontend Development Bootcamp: HTML, CSS, JavaScript, TypeScript, React, Next.js

University of Cincinnati, UC Clermont College Aug 2013 - Apr 2016
Associate of Science, Respiratory Therapy (Summa Cum Laude)

California State University, Chico 2003
Bachelor of Arts, Philosophy

Certifications: AWS Certified Cloud Practitioner (Jul 2025) | Anthropic Claude 101 (Jun 2026) | Anthropic Claude Code 101 (Aug 2026)
